

Offload-resident gap reduction (ms) — descriptive screening only

2.8365B BF16, RTX 5090. Original parent comparison; fresh matched resident/offload screens except historical b16.
Prefill: last-token logits + KV; decode: fixed real KV; generation: prefix2048 +128 predetermined steps.
Random weights; no quality claim. Unmeasured/inactive cells shown as —. Screens do not establish gains.
